Overview

Ramiz Arslan focuses on competition and antitrust in the automotive, financial institutions, retail and technology sectors.

Ramiz's advice cover all aspects of competition law matters, including complex mergers control and foreign investment aspects of M&A deals and antitrust investigations. He represents multinational and Turkish companies before the Turkish Competition Authority and other public regulators.

He also assists companies in data protection compliance and privacy issues including creating business models in line with the data protection law and privacy and developing solutions to minimize risks.

His clients lay in a vast array from energy and manufacturing to financial institutions and real estate. He assists national and international clients in implementing legal strategies and advises on commercial approaches to develop case strategies or to ameliorate companies' needs.
